Leon Coates Installed As Worshipful Master of Carbon Masonic Lodge

On the anniversary of St. John the Evangelist, December 27, 1950, the following officers were installed and invested for the ensuing year in Carbon Lodge No. 107:

L.A. Coates, Worshipful Master.
W.F. Ross, Immediate Past Master.
R.J. Shaw, Senior Warden.
L.F. Poxon, Junior Warden.
W.A. Braisher, Secretary.
J.A. Barr, Treasurer.
C.A. Cressman, Senior Deacon.
F. Emery, Junior Deacon.
T.J. King Jr., Inner Guard.
D.B. Gilbert, Senior Steward.
G.H. Levins, Junior Steward.
S.J. Cannings, Chaplain.
F.J. Bessant, Director of Ceremonies.
W.A. Braisher, Registrar.
D.M. Code, Tyler.

The officers were installed by Rt. Wor. Bro. W. A. Braisher.

Good Program Presented At Christmas Concert

The annual Christmas concert held Thursday, December 21, in the Carbon Scout Hall, drew a capacity crowd and the excellent program was enjoyed by all. The local teachers are to be complimented for their time spent in directing the pupils in rehearsals to produce an outstanding entertainment. Following are the numbers presented during the evening:

O Canada.
"How Do You Do," Room 1.
Word of Welcome, Room 1.
Bell Drill, Room 2.
"Frosty the Snowman," Room 3.
Play, "Santa Claus Junior," Room 2.
Drill, "Pop Goes the Weasel," Room 1.
Recitation, "After Christmas," Geraldine Mortimer.
Song, "Christmas Cavalcade," Room 3.
"Old Woman in the Shoe," Room 1.
Skit, "Old Ford," Room 3.
Song, "Jolly Old St. Nick," Room 2.
Christmas Tree, Room 1.
Star of the East, Room 3.
Play, "Girl Trouble," Room 5.
Song, "Rudolph the Red-Nosed Reindeer," Bobby Ohlhauser, Aaron Drexler, Adine Harsch, Wayne Garrett.
Pageant, Room 4.
Closing Song, Room 4.
God Save the King.
Santa Claus arrived on schedule to the delight of the children, and distributed the many presents on the Christmas tree. Free treats of candy, nuts, apples and oranges were given out by members of the Carbon Lions Club, bringing an enjoyable evening to a close.

Carbon topped the Rockyford hockey team by a 4-2 score in a game played on local ice Thurs. evening of last week. Carbon line up was: Arnold Martin, goal; defence, John Buchner, Dale Poxon, Howard Hunt, Tom Heath, Archie Gouldie; forwards, Gordon McLeod, Jack Appleyard, Cliff White, Bill Heath, Jim Foster, Roy Kary, Reg Heath, Marshall Semenchuk, Oscar Gackle.

Playing at Acme Friday evening the Carbon team was outplayed by the home team and came out on the short end of a 7-2 score.

Outlook For Trade

AS WE CONTEMPLATE THE BEGINNING of another year one matter of importance is Canada's outlook for foreign trade in 1951. Much of our prosperity depends upon our ability to sell our products abroad, since the population is too small to absorb the products of our farms and factories, and the raw materials produced here. Since the time of confederation the United States and the United Kingdom have been Canada's largest markets. Of these, the United Kingdom has traditionally bought more from Canada than she has sold here, so that there has usually been a favourable trade balance with that country. The average Canadian surplus on commodity trade with the United Kingdom in the years 1935 to 1939 was \$231,000,000. This figure rose considerably during the war and in the succeeding years, reaching \$564,000,000 in 1947.

An Outlet For Their Products

While the United States also buys a great deal from Canada, it is necessary for us to import many of our requirements from that country, and Canadians are familiar with the fact that the surplus in this case is not always in our favour. Farmers have long looked to the British market as an outlet for many of their products and the demand for them there has been important to our economy. However, with the restoration of normal production in many parts of Western Europe, and the serious dollar shortage in the United Kingdom there has been anxiety as to the future market for Canadian products there, and there have been discussions between officials of the two countries on this matter.

Outline Plans For Next Year

Recently it was officially announced in London that United Kingdom purchases in Canada in 1950 are expected to total \$400,000,000 and that it is hoped that this level will be maintained in the coming year. Mr. George Bottomley, Overseas Trade Secretary, has told the House of Commons that Britain expects to import more Canadian raw materials in 1951 than she did in 1950 and that she is anxious to secure large quantities of Canadian bacon and cheese. He mentioned plans for the purchase of other Canadian products, but pointed out the difficulties caused by the dollar shortage. He considered the wide sale of British-made cars and of other manufactured products from the United Kingdom a great help in overcoming the currency problem. The ability of the British to buy Canadian products is of great importance to this country, and upon it rest in part our prospects for prosperity in the coming year.

Veteran Editor Passes On

The death occurred on November 29 of F. Arthur Demorest, 76, of Regina, after 50 years associated with newspaper work in Western Canada.

Mr. Demorest for over 35 years edited the columns of the ready print service supplied to weekly newspaper publishers by the Winnipeg Newspaper Union at the Regina branch of the Toronto Type Foundry Company. His work with the ready print service made him many friends with newspaper editors in the West. He delighted to reminisce with pioneer publishers of the early beginnings of weekly papers across the prairies.

Born in Cleveland, Ohio, in 1874, Mr. Demorest went with his family to Ontario at an early age, and in 1878 moved to Winnipeg, making the journey from the East by way of the United States and the Red River. After finishing his education Mr. Demorest began his career in the printing business. He worked with the Winnipeg Free Press and was later associated with papers in Brandon, Moose Jaw, Medicine Hat

Hunters Warned To Wear Bright Clothes

WINNIPEG. — Manitoba game wardens have been instructed to crack down on hunters who fail to wear regulation all-red or white clothing.

Hunters who are not wearing proper outer garments constitute a menace to themselves and others, G. W. Malaher, provincial game and fisheries director, said.

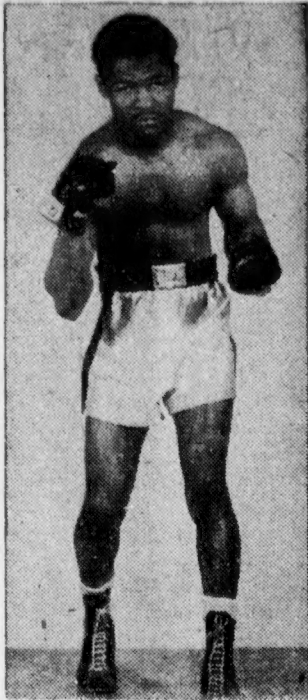

Mr. Malaher noted that three persons have been killed in accidents since the big game hunting season opened Nov. 27.

The government expects a slight increase in the number of licences issued, which last year totalled 28,000. Bag limit this year is one male deer over one year (three-inch antler) per licensee.

and Keewatin, Ont. In 1905 he joined the staff of the Toronto Type Foundry Co. in Winnipeg and was later in charge of the Calgary office. In 1911 he was appointed manager of the Regina Branch, where he remained until ill health forced him to retire in 1946.

His many friends express their deepest sympathy to the bereaved.

Water expands under both heat and cold.

OTIS GRAHAM, 21-year-old colored boy from Philadelphia, recently lost a ten-round boxing event at Montreal against Laurent Dauthuille of France, a leading contender for the middleweight boxing championship.

Funny and Otherwise

Two rival authoresses met the other day. One had just had a new book published.

"Darling, I think it's a masterpiece," said the other. "Who wrote it for you?"

"I'm so glad you like it. Who read it to you?"

Traffic Officer: "Hey! What's the idea? Didn't you hear me whistle to you?"

Girl Motorist: "Certainly I did, and if you try again I'll report you."

Humble Guest: "Er—have you ever walked in your sleep, Sir Reginald?"

Rich Host: "Certainly not. I may have motored."

Mr. Smith had been lecturing in a neighboring town. "How did you get on, dear?" asked his wife. "Did you carry your audience with you?" "No," he replied. "But I could easily have done so. It was small enough."

Smith is a young lawyer, clever in many respects, but very forgetful. He had been sent to interview an important client, when the head of his firm received this telegram: "Have forgotten name of client. Please wire at once."

The reply was a masterpiece of sarcasm. It ran: "Client's name Jenkins. Your name Smith."

"So you've just got back from your holiday. Feel any change?" "Not a penny."

The driver became so interested in his companion's conversation that he missed the red light and was halfway across an intersection before a police whistle brought him to his senses.

"Officer," he alibied, "I tried to stop and couldn't. I think there's something wrong with my car!"

"You're right, Buddy," the cop said sarcastically. "I think it's the nut that holds the steering wheel!"

"Grace," said her father from the head of the stairs, "is that sweetheart of yours an auctioneer?"

"No father, Why?"

"Because he keeps on saying he's going—going, but he hasn't gone yet."

First Spook: "What's the bump on your head?"

Second Spook: "I was coming through the keyhole as usual when some joker put the key in."

Cattle Rustlers Busy At Regina

Cattle rustlers stole six head of cattle from the livestock pens of Intercontinental Packers, limited, of Regina, Sask. Police said a truck had backed up to a loading rack. A key was used to unlock a padlock on the pen gate and the cattle were driven up a loading shoot to the platform, herded into the back of the truck and driven off.

Sees Public Cooperation Vital In Beating Inflation Menace

Bank of Montreal President Advises "Pay-as-you-go" Policy in Government Financing — Says Freeing of Canadian Dollar "Courageous and Wise"

GENERAL MANAGER REPORTS B of M ACCOUNTS NOW NUMBER 1,800,000 — DEPOSITS EXCEED TWO BILLION — LOANS PASS HALF-BILLION MARK

Montreal, Dec. 4 — Although "wise and forthright governmental policy" may check inflation somewhat, little can be done without the understanding and help of people in all walks of life, emphasized B. C. Gardner, president of the Bank of Montreal, at the 133rd annual meeting.

"In many important respects the past 12 months have been, for Canada, a period of continued progress," Mr. Gardner said. Against the background of an improved export situation and an inflow of U.S. capital, a "wise and courageous" step had been taken in freeing the Canadian dollar. But there was "a marked revival of inflationary pressures," with living costs now at all-time peaks.

"We live today in an eerie twilight, not between peace and war but between cold war and an all-out struggle," he observed. "Even while we long for peace and work for peace, we must meet the exigencies of the present moment and, as best we may, prepare for what the future may bring."

No Spiritual "Gold Standard"

There seemed to be no "gold standard" of ideals common to dictatorships and democracies, the president declared. Behind the iron curtain, truth became propaganda so distorted that one's hope for an early or easy resolution of the basic issues dividing the world into two camps cannot find a very firm foundation. In the face of a continuing challenge to peace, Canadians might well look to their defences, he said, using the term in its broadest sense.

The defence program could not come within the "business as usual" category, said Mr. Gardner. While all-out mobilization was not called for, the period of declining taxes appeared to have ended. Canada lacked surpluses of quickly available productive capacity. In consequence, partial mobilization became an "extra," making for inflation far more than its size indicated. But a return to widespread controls at present could introduce serious friction into the economy.

"However, national security could not be maintained 'on the cheap,' the speaker held. Increased use of manpower and materials for defence inevitably demanded "some readjustment" of living standards. "And while wise and forthright governmental policy may do something to check inflationary forces, little can be accomplished unless the understanding, level-headedness and cooperation of the Canadian people in all walks of life can be enlisted for the task."

In discussing the factors bearing on inflation, Mr. Gardner suggested strict adherence by Government to a

"pay-as-you-go" program. A "bold and flexible" monetary policy was also required. Low interest rates helped to stimulate inflation. Hoarding or panic-buying by producers or consumers could not but weaken the economy. Only a high sense of social responsibility in those concerned with collective bargaining could prevent a wage-price spiral — a race which no one would win.

General Manager's Address
The balance-sheet presented by Gordon R. Ball, general manager, showed total year-end assets of \$2,190,000,000, compared with \$2,140,000,000 a year ago. Deposits at \$2,063,000,000 had increased by \$44,000,000. The bank now has over 1,800,000 deposit accounts, an increase of more than 500,000 in the past six years. Call and short loans were up to \$68,000,000, while other current loans totalled \$528,000,000 against \$487,000,000 in 1949.

Turning to the business situation, Mr. Ball said that some prices had increased so rapidly that corrective declines might reasonably be expected and, in fact, had occurred in certain lines. He cautioned business against making commitments solely in anticipation of price increases. The situation, he felt, warranted a careful scrutiny by business men of inventories, of credit extension and plant expansion in the light of the capital resources of their individual businesses.

The time was ripe, the general manager suggested, to re-examine the usefulness of exchange control. While Canada had gone far in removing barriers to international commerce, the "complex and expensive" mechanism of control remained. With Canadian holdings of gold and U.S. dollars at high levels and with the need of maintaining a fixed exchange-rate now removed, Canada should give "a vigorous lead" in eliminating this control as soon as conditions permitted.

Mr. Ball warmly complimented the staff upon "another year of superb performance." He referred to the bank's continuing studies of staff training, simplification of routine, mechanization, improvement of working conditions, and the overall welfare and development of its employees. The B of M had instituted a general salary increase during the year, especially beneficial to staff members at lower salary-levels.

ARMY COMMANDER INSPECTS FORT CHURCHILL

CHURCHILL, Man. — Brig. R. E. A. Morton, officer commanding the army's prairie command, has completed an inspection of nearby Fort Churchill.

In a radio address, Brig. Morton said he was impressed by the smart appearance and general efficiency of the troops in the Hudson Bay base.

HOLD HANDS IN CHURCH U.K. CLERIC TELLS COUPLES

DERBY, England. — Rev. William H. Cookson of the Queens' Hall Methodist Church invited courting couples to hold hands in church.

"It is far better that they hold hands here than in the back row of some cinema or in a dark alley," he said.

Oil Flow Through Pipeline To Be Boosted In 1951

— To Build Six New Pumping Stations

WINNIPEG.—The capacity of oil flowing through the recently completed inter-provincial pipeline will be boosted from 90,000 to 135,000 barrels per day out of Edmonton next year, T. S. Johnston, vice-president of the Inter-provincial Pipeline company, of Toronto, said here.

He said the company now has plans for six new pumping stations to be built next year, in addition to the six already getting into full operation along the 1,150-mile pipeline from Edmonton to Superior, Wis.

Interviewed at the Fort Garry hotel, Mr. Johnston pointed out that now only the pumping station at Edmonton is working at full capacity,

but the Regina and Kerrobert, Sask., stations will be complete by early December. Stations at Kromer, Sask., Gretna, Man., and Clear Brook, Min., will be in full operation by the new year.

Then at full capacity, the line will deliver 90,000 barrels a day. The prairies will draw in about 40,000 barrels of that, he said, with about 50,000 barrels a day reaching Superior for consumption in Ontario.

The oil, which started to bubble from Edmonton pumps Oct. 4 will reach Superior this weekend, he said.

Pumping into the spur line from Gretna to Winnipeg will be started by next week, he added. "That line should carry from 15,000 to 20,000 barrels a day."

Mr. Johnston estimated that the oil line would save Canada approximately \$300,000,000 a year in American dollars. "When the oil gets down to Ontario, it will continue to force out American imports to the extent that we can carry it," he stated.

In addition to the reduction in oil and gas prices now, Mr. Johnston believed there should be a further reduction in consumer prices by next spring.

The pipeline, in full operation, will employ about 350 persons, he said. Besides station and maintenance crew, the line will be constantly patrolled by air in case of breaks or leakage.

Watch December For Accidents

WINNIPEG.—DDT in Winnipeg is not just an insect killer, according to the Junior Chamber of Commerce. In this case DDT stand for "Deadly December Toll".

In a warning against holiday hazards for both car drivers and pedestrians, the chamber says more people are killed in traffic accidents during the month of December than in any other month.

Requesting that citizens take special care during the holiday month, chamber officials point out main reasons why the December traffic toll

1. Christmas holiday driving.
2. Christmas holiday walking.
3. More persons on the roads because of Christmas shopping and holiday visiting.
4. Reduced visibility because of earlier darkness and icy winter streets.
5. People full of a little too much of the holiday spirit.

The chamber urges both pedestrians and motorists to take extra care to try to reduce the December accident figure this year.

Patterns

Warm And Gay

Alice Brooks

Cutest hat and mittens in the Skating Set! And, of course, your girl will wear these to school too. Done in three colors.

Quick crochet! Hat, mittens in 2 sections each. Pattern 7326; directions hat, mittens. Sizes 2 to 12. To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Be sure to write plainly your Name, Address and Pattern Number.

It's the best ever—our latest Alice Brooks Needlework catalogue! Send twenty-five cents in coins for your copy. Illustrations of designs for crocheting, knitting, embroidery, toys, quilts, children's clothes. Free needlework pattern is printed in book.

NOTE STILL STANDS

LONDON. — A reminder of the aerial blitz days still hangs in a public house near Trafalgar Square. The sign says: "this house will remain open during a blitz indubitably. In the event of a direct hit it will close." 2911

ODDITIES IN THE NEWS

Mrs. Victor Middleton, of Grand Rapids, Mich., who had five daughters, always said she'd like to have some boys in the family. Her wish came true. She gave birth to triplets—all boys.

A flying grocery store is assisting farmers of Fayette county, Washington, who are unable to get out of their snowbound areas to buy food. John Blair of Milledgeville spent several hours shovelling snow off his runway. Then he 'phoned farmer friends and got their orders. He flew over snowbound areas and dropped 11 grocery orders. He plans the same service until the snow clears.

Mrs. Claire Jackson of Carthage, Mo., states that a buck deer has apparently fallen in love with a two-year-old heifer on her farm. She says that the four-pointer has remained by the side of the shorthorn heifer and occasionally chases her about the pasture. But he never bothers other cattle on the farm. Her story is backed up with pictures of the loving pair mooning into each other's eyes.

Don't tell F. R. Stevia, of Seattle, the automobile has entirely supplanted the horse. Stevia's daughter, Carol, had to give away Dusty, her horse, because she had no pasture. More than 300 telephone calls came in.

USED AS TEST

The famous "slow march" of England's Buckingham Palace guards was originated by Charles II to determine if his soldiers were sober.

Saskatchewan Winter Fishermen All Set For Season's Catch

BIG RIVER, Sask.—Some 500 fishermen in this district watch the lake ice thicken daily as the opening of northern Saskatchewan's commercial fishing season nears. On the wind-whipped, ice-covered lakes around this community, 100 miles northwest of Prince Albert, fishermen have their nets mended, their heavy parkas ready and basin holes picked.

Here in Big River, the annual hustle and bustle of swinging from summer's lumbering to winter's fishing is almost at an end.

Two fish firms which handle most of the business have just completed the annual catalogue mailing. That involves several weeks of licking stamps, folding circulars and price lists—more than 500,000 of them—for distribution to markets over the prairie provinces.

The post office staff here has worked after hours to get the mail off.

The companies expect to handle close to 3,000,000 pounds of fish—lake trout, whitefish and other freshwater varieties.

They have added three new snowmobiles to their fleet. These half-tractor, half-boggy vehicles which skim over snow and ice are used to pick up the catch at the basin holes.

The snowmobiles move the fish to refrigerator plants. There it is later filleted and packed for shipping.

Their pre-season preparations all but complete, the fishermen daily gaze skyward for sign of the steady below-zero weather they need to get the season's work started.

Once under way, fishing will continue until March.

Over 18,000 To Take Canada's Census In 1951

OTTAWA. — Between 18,000 and 19,000 Canadians will scour Canada next summer to seek the minutest details about their fellow men.

That's the number of census enumerators employed in the complex job of completing Canada's ninth decennial count of its people and their possessions, Herbert Marshall, all dominion statistician, said.

In addition, 262 census commissioners will take charge of the count in each electoral district. Their appointments will be announced early in 1951.

Some \$9,000,000 will be poured into that count, considered the most important in the country's history. To be launched June 1 next, it has been two years in preparation. It will provide the first accurate gauge of Canada's growth since 1941, when the last counting job was completed. The census then showed a population of 11,507,000.

The census will shed new light on regional characteristics, aiding the manufacturer in his advertising campaigns and merchants in their marketing.

Surveys will also be made of homes in which Canadians live, how they earn and spend their money, what equipment they possess.

For the first time, the census-takers will make a detailed study of the fishing industry. They also will survey the rural scene, studying Canadian farm life, and the wholesale and retail trade.

GEMS OF THOUGHT

CONTENTMENT

Great is he who enjoys his earthenware as if it were plate, and not less great is the man to whom all his plate is no more than earthenware.—Leighton.

Better is the frugal intellectual repast with contentment and virtue, than the luxury of learning with egotism and vice.—Mary Baker Eddy.

Happiness consists, not in possessing much, but in being content with what we possess. He who wants little always has enough.

—Zimmermann.

Smile Of The Week

Husband: "My dear wife, I have taken you safely over all the rough spots of life, haven't I?"

Wife: "Yes. I don't believe you missed any of them."

Success comes in "cans".

The Sports Clinic

(An official department of Sports College)
Conducted by Lloyd "Ace" Percival

SKATE TO SCORE

BEFORE a hockey player can score goals, he must learn to skate, and skate well. Skating is hockey's most important skill, and also the most neglected. Too many players just do "what comes naturally", making no attempt to develop extra speed, shift, or ability to cut in on goal. It should be first on any player or coach's agenda for improvement. The success of any team depends on its skating, and similarly, the progress of any hockey player continues only as long as his skating keeps him with his competition.

A research project by Sports College has revealed that skating is generally the weakest of all hockey skills. The average player or coach apparently takes it for granted that ability to skate well just happens—a sort of bonus. They're always looking for it, but they seldom try to develop it.

As a result, many players are handicapped by bad skating habits throughout their hockey careers. Even in professional hockey there are few really good skaters who can turn on the speed, stop on a dime, shift their way past a check, or cut in from either wing. A little observation will disclose dozens of players who have developed one or two "tricks" which they rely on exclusively, or who depend on their speed alone. Many can cut in from one wing only; very few have a really effective "shift".

Therefore, the coach or player who goes to work on skating will reap rich dividends. There is no other phase of hockey in which improvement can mean so much, since it covers all phases—passing, puck-carrying, goal scoring and checking.

The Sports College Research staff has developed much interesting material on the most common faults found in skating, and this week I am going to list them, together with their most effective remedies.

Fault: Skating with stiff legs, especially at the knees.

Remedy: Keep legs loose and relaxed as possible. Skate with a bent knee, using a "soft" or relaxed knee action.

Fault: Lifting feet too far from ice.

Remedy: Feet should be kept as close to the ice as possible while bringing leg forward for another stride. Kicking the foot up behind may look fancy, but it wastes time and effort. Keep 'em low!

Fault: Skating with tense upper body.

Remedy: Concentrate on keeping the upper body in front of the hips, and as loose and relaxed as possible. Never strain.

Fault: Weak "shove off."

Remedy: Make a conscious effort

to get maximum shove off at the end of your stride. This is what gives you your speed. Too many skaters just "pick 'em up and lay 'em down," with no real drive. Toes should be pointing out to the side as much as possible at the moment of shove. Really drive as your back foot leaves the ice.

Fault: Inability to cut in on goal from both wings. Many players can cut effectively one way only. This is a serious weakness. It has kept many potential stars in the minor leagues.

Remedy: Here is a simple drill that will teach you to cut both ways equally well. It's known as "skating the eight."

Start behind the goal. Skate towards the corner, then circle towards the face-off zone at center ice. Skate into the opposite corner and circle the other goal. Then cross center ice again, and circle the original goal. You should have skated a figure eight when you are finished.

This complete figure should be skated four times. Each player should be timed to see how long he takes to cover the "eight" four times and the drill done as a contest. Keep tabs on speeds to see how the player is improving.

Once this large figure can be skated well the size can be decreased. For example, skate a figure eight between the blue lines until it can be done well, and then one as small as possible.

Coaches should emphasize the contest angle, and players doing it on their own would be wise to time themselves, since this is the only way to measure improvement. Any ambitious lad trying to make a team will find regular daily workouts at this drill will help him realize his ambition much faster.

This drill can also be done skating backwards, and is particularly ideal for defensemen who must learn to back up with the attack.

We'll give you more hints on skating and hockey in general in future columns.

Anyone can join Sports College free of charge. Write a letter to Sports College, Box 99, Toronto 1, Ontario. You will be sent a catalogue containing a complete list of our training literature of over 100 booklets and pamphlets, containing coaching advice on all sports. There is nothing like this for young men and women in all Canada or the U.S.A.

A 15 minute Sports College broadcast is carried every Saturday afternoon by the C.B.C. Look up the time and station in your area, and be sure to listen in for more tips on sports.

RECIPE HINTS

THE IDEAL COOKIE for the Xmas table. Chocolate Wreaths decorated with red candles and tied with ribbons are simple to make. Not only are they good to eat but provide the table with extra decoration.

Chocolate Wreaths

Two and a half cups semi-sweet chocolate bits, 4 cups crisp, flaky cereal.

Melt chocolate bits over hot but not boiling water in a double boiler.

Add cereal mixing until well coated. Place spoonfuls of the mixture on waxed paper, and shape into wreaths with two forks. Decorate with tiny red candles and tie with red ribbon when chocolate has hardened.

World Happenings Briefly Told

A 22-year-old farm worker of Ledbury, Eng., accused of stealing a tractor said that he took it to visit a girl friend 60 miles away.

A Victoria Cross and four other military medals belonging to a sergeant-major who served in the 1858 Indian Mutiny, brought \$225 at a sale in London.

After nearly two years British Post Office chess players have won a four-board correspondence match against Portugal. Now they're starting an eight-board match with Belgium.

Hilary Marquand, British Minister of Pensions, is visiting the United States and Canada to study problems of British pensioners. About 11,000 British pensioners live in Canada and 4,000 in the United States. They are veterans of both world wars.

A British-made transport plane has started winterization tests at Edmonton to determine whether it could be used in the Canadian northland. Provided it could pass winterization tests, it would be invaluable in hauling big loads from the short runways of the north.

Workers in Brandon, Man., are wrecking the immigration hall, built 50 years ago to house settlers. Thousands of immigrants, including some of the first Duukhobors, lived there. In later years it was successively a warehouse, hostel for unemployed and emergency housing centre.

Thrifty For Gifts

Anne Adams

ONE yard of 35-inch for the small size! Little more for the other. As shown in diagram, this apron is ONE piece, plus ties and pockets. Whip up several for gifts!

Pattern 4718 comes in sizes small (14, 16) and medium (18, 20.) Small size one yard 35-inch.

This pattern, easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send twenty-five cents (25c) in coins (stamps cannot be accepted) for this pattern. Write plainly size, Name, Address and Style Number and send orders to:

**Anne Adams Pattern Dept.,
Winnipeg Newspaper Union,
60 Front Street W., Toronto.**

Send Twenty-five Cents now (in coins) for our Fall and Winter Pattern Book by Anne Adams. The best of the new-season fashion in easy-to-sew patterns for all. Christmas gifts, too, plus Free a thrifty pattern for making a child's dress from a man's shirt. 2911

Weekly Tip

COFFEE, TEA STAINS

Coffee and tea stains on cups can be removed by scouring with equal parts of salt and baking soda moistened.

Curling Quite A Simple Game . . .

The following taken from The Balcarres Free Lance will be of special interest to many who have wondered for many years what is in this game of curling that takes one from warm home fires in the coldest days of winter, and persuades them to go to great expense and effort to attend bonspiels all over the country:

"For the benefit of our citizens, men who have not learned about this grand old game, we have been asked to give an outline of how the game is played. To get an accurate story we interviewed one of our leading curlers, and secured the following:

The curling game itself is the essence of simplicity, consisting of four players on a side, each throwing chunks of tombstone with handles, at a target down on the ice.

The skip is the egg who stands at the target end and informs all the players on his side how rotten they are. After all the other players are through the two skips proceed to the shooting end, and after they have flung their rocks, one of them swells out his chest and the other glances around at the ice maker and gives him a dirty look.

After the end is played, the side making the fewest mistakes scores as many shots as they have shots lying closer to the target than the closest enemy shot.

In case of a close finish, some impartial fellow is called on to measure the distance of the opposing rocks, and then gives the shot to which ever skip he likes best. All ties are in favor of the rink which can holler the loudest. This is the reason why curling is called the roaring game.

The one feature which distinguishes curling from all other sport is the use of brooms. The players carry these household utensils and if a rock doesn't appear to have sufficient pep behind it, they sweep ahead of the rock to make it run further.

There are few prettier sights in sports than to see men who, if asked to put a shovel of coal in the furnace would yell blue murder, putting enough jazz and energy into his broom exercise to sweep all the carpets between here and Turkey.

The best players do not throw rocks at the target, but stand behind a glass where it is nice and warm, and make such intelligent comments as "Oh, it's narrow," "It's wide," he "he didn't get the broom," "rotten shot," and so forth.

If it wasn't for curling, many citizens wouldn't have an excuse for going out every night, leaving friend wife alone to "keep the home fires burning."

ANSWERS TO QUIZ

- Bonus. On Calvary.
1. Laval.
2. Bishop Strachan.
3. Dr. Ryerson.
4. Hon. T. C. Douglas.
5. J. S. Woodsworth, the CCF.
6. Cardinal McGuigan.
7. 1925.
8. Dr. Nicholson.
9. Near Midland, Ontario.
10. In Cardston, Alberta.
11. Near Brantford, Ontario.
12. The Church of England.
13. The United Church.
14. 68 pilgrims coming home from Rome died in a plane crash.
15. 68 pilgrims coming home from Rome died in a plane crash.
16. Raymond Massey.
17. Tommy Burns, about 40 years ago.
18. The cow jumped over the moon.
19. George Bernard Shaw.
20. Matthew, Mark, Luke, John.
Bonus. In Bethlehem.

KITCHEN MEDITATIONS

By JANE DALE

GRAB A PIECE OF HAPPINESS AS YOU PASS BY

Happiness is all about you, here, there, and everywhere.
In the green of the trees; in the blue of the sky;
In the music we hear and sing.
Then grab a piece of happiness as you pass by!

Happiness is all about you, every minute every day.

In the earth bound task; in the bird swinging high;

In rush of noon; solitude of eve.

Then grab a piece of happiness as you pass by!

Happiness is all about you, for others, you and me.

In the very fact of living as moments swiftly fly;

In companionship with those we love.

Then grab a piece of happiness as you pass by!

PRISCILLA'S POP—Perils Of Fatherhood

A Quiz On Canada

(By F. W. Rayfield)

Canada has more churches per capita than almost any other country and they are of many sects. The first 15 questions are about the church and religion. The others are for sportsmen, movie fans, Bible students, readers of the news and nursery rhymes. Mark yourself 5 points for each correct answer. If your score is low you will learn more than if you had known the answers already.

1. A French R.C. came to new France in the early days and did church work for 50 years. His name? Lalement, Langevin, Laval?
2. Who was the Church of England leader during 68 years of the last century? Bishop Fleming, Bishop Owen, Bishop Strachan?
3. What Methodist clergyman organized the educational system of Ontario during the past century? Dr. Grant, Dr. Tassie, Dr. Ryerson?
4. What Baptist clergyman is now premier of a western province? Is it: Campbell, Douglas, Manning?
5. What Methodist clergyman gave up the ministry and founded a political party? Was it: Dr. Gordon, Dan McIvor, Woodsworth?
6. A Canadian-born R.C. clergyman was, a few years ago, created a Cardinal. Was he Lacombe, Tache, McGuigan?
7. In what year was the United Church of Canada formed? Was it in the year 1920, 1925, 1930?
8. Who was recently elected Moderator of the United Church? Was it Dr. Nicholson, Dr. Sisco, Dr. Brewster?
9. Where is the Martyrs' Shrine? Near Montreal, near Three Rivers, near Midland?
10. There is a large Mormon Temple in Canada. Is it in B.C., Alberta, Saskatchewan?
11. The Royal Chapel of the Mohawks is: near Brantford, near Hamilton, near Niagara Falls. Which?
12. Parts of the Bible can be bought in how many languages? 70, 90, 110. Which?
13. What church has its teachings based on the 39 Articles? Is it the Baptist, United Church, Church of England?
14. What Protestant church has the largest following in Canada? Presbyterian, Salvation Army, United Church?
15. What airplane disaster recently involved many Canadians?
16. What Canadian Actor played the role of Abraham Lincoln in a movie? Walter Pidgeon, Walter Houston, Raymond Massey?
17. A Canadian boxer was for a time heavyweight champion of the world. Was he: Tommy Burns, Sharkey, Corbett?
18. In the nursery rhyme what did the cow jump over?
19. What famous writer and wit died recently in England?
20. Name the four gospels.

Bonus. In what town or city was Jesus born? Nazareth, Jericho, Bethlehem?

Bonus. Where was Jesus crucified? In Gethsemane, on the Mount of Olives, on Calvary?

(Answers found elsewhere on this page)

Railwayman Collects Indian Relics As Hobby

HAGUE, Sask. — The wind-swept prairie is the hunting ground of J. P. Newlove, 46-year-old railway pump man whose hobby is collecting relics of a former age.

He collects Indian weapons and tools, found mostly on high ground where wind and water erosion has worn away the protective covering of top soil.

He has been picking up flints, spearheads, stone hoes, hammers and weapons ever since he joined the Canadian National railways staff at Craik, Sask., 26 years ago.

Now he has hundreds of arrowheads in an assortment of sizes, designs, colors and shapes.

"Farmers' rock piles are also good hunting grounds," Mr. Newlove says. "But one of the best places I know is a flowing well about a mile east of here. It must have been a great Indian encampment at one time. The ground is covered with flaked arrowheads."

STORM RESCUE ON BATTERED ISLAND—Firemen use a rowboat to evacuate a family from a flooded home on Staten Island, N.Y. This is a mile inland, which gives you an idea of the might of the storm that blew sea and river into the metropolitan area. Parts of downtown Manhattan were no better off than Staten Island. Damage is expected to run into the millions.—Central Press Canadian.

SHERMAN TANK BATTLES DRIFTS—A 30-ton Sherman tank of the U.S. National Guard is shown trying to plow through the heavy snowdrifts which have caused Cleveland, O., to practically close shop. Drifts as high as 25 to 30 feet were reported in some parts of the city. The National Guard has been ordered to "shoot to kill" looters.

FIRST KEEL LAID—With the words "I declare this keel to be well and truly laid," Mrs. H. T. W. Grant, wife of the Chief of Naval Staff set in motion the process of building Canada's \$71,000,000 worth of new-type navy escort ships. Mrs. Grant, (centre), can be seen with her hand on the huge steel section as it was lowered into place recently at Canadian Vickers yards in Montreal. Trade Minister C. D. Howe was among dignitaries at the ceremony.

BRINGING CANADIAN CHRISTMAS TO SUNNY HAWAII—Crew of the tribal destroyer H.M.C.S. Nootka will bring Canadian atmosphere to snowless Hawaii, where the ship's crew and officers will spend Christmas. Seamen carry Christmas trees aboard, compliments of Mayor S. Kinley of Halifax to the mayor of Pearl Harbor. Nootka left Halifax for duty in Korean waters. Left to right in the picture are: AB Earl Lynton Conrad, Lockport, N.S.; OS Reg Garland, Woodstock, Ont.; Commissioned Gunner A. A. "Butch" Butchart, D.S.M., Halifax; and Lieut. Dave Pearce, Toronto.—Central Press Canadian.

"NOSE-HANGARS" SAVE SPACE—No, these North Stars haven't plunged through a couple of apartment blocks. They are merely undergoing maintenance work in their newly built "nose-hangars" at McChord air force base near Tacoma, Washington, where the R.C.A.F.'s 426 Thunderbird Squadron is based for its operations on the Korean airlift. With a cold winter coming on and hangar space at a premium because of the large number of planes on the airlift, these "nose-hangars" were built to give snug-as-bug shelter for mechanics working on the planes.—Central Press Canadian.

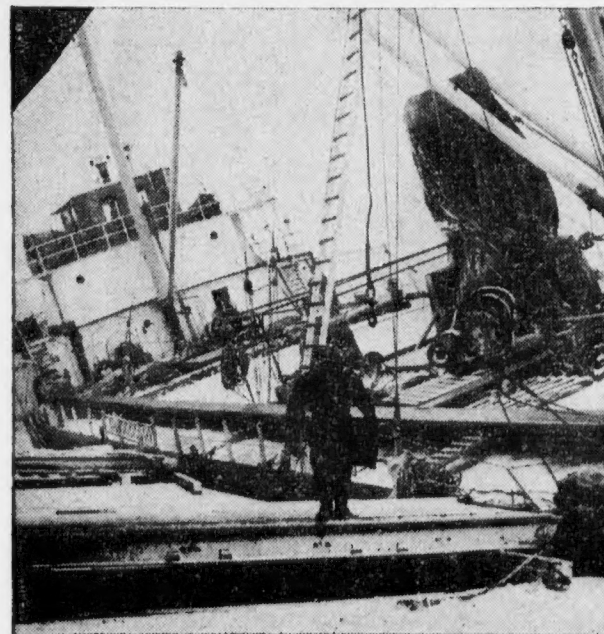

VALUABLE TEAM—Here is a classic example of R.C.A.F. teamwork in action. Storing film in the vaults of No. 1 Photo Establishment, Rockcliffe, Ont., are jockey-sized LAC Lawrence Orr of Winnipeg, and towering LAC Dick Holt of Peditcodiac, N.B. Standing five feet, two inches, LAC Lawrence Harvey Orr easily takes care of the lower shelves, while his buddy uses his six feet, eight inches of height to reach the upper storage cans. As the centre of the R.C.A.F.'s entire aerial and ground photo activities, No. 1 P.E. has millions of feet of film catalogued and locked away in its vaults.—Central Press Canadian.

WINTER UNIFORM—This is how Canadian soldiers going to Korea will be dressed if they have to fight in sub-zero temperatures. The captain shown in this picture models the Korea garb consisting of a string vest, woollen shirt, lined parka, wind-proof pants, woollen socks, heavy mitts (with separate trigger finger) and high leather topped boots with rubber soles. The cap has earflaps and the fur-trimmed hood pulls up over the cap. Rank insignia is worn on the front buttons of the parka.

"OH! MOTHER, LOOK!"—As excited as any kid his age would be watching a parade, Bonnie Prince Charles points with glee at some interesting sight he sees while watching the procession of royalty pass Buckingham Palace. In the procession was Queen Juliana and Prince Bernhard of the Netherlands, who are visiting the royal family of England. Princess Elizabeth stands alongside the youthful prince.

STORM BATTERS GREAT LAKES SHIP—The storm that caught most of Ontario almost wrecked this ship in Lake Ontario. The Weyburn, bound for Montreal with a 1,500-ton cargo of steel plates, builders' supplies and soap, wallowed helplessly for hours after her engine-room was flooded. With a 40-degree list she reached Toronto harbor when her crew managed to get up steam enough to make headway.

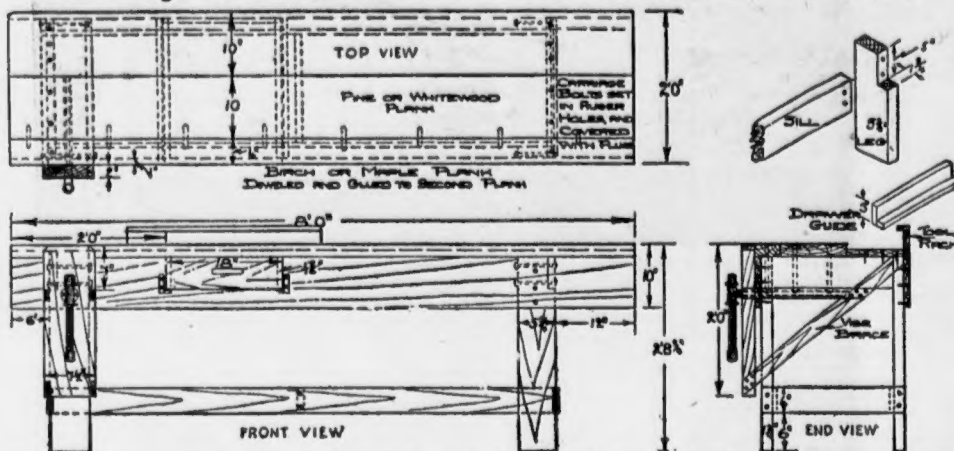

A FAREWELL AS PRINCESS PATS SAIL—At the gangplank of the U.S. troopship carrying 2nd Battalion of the Princess Pats to Korea, Brig. J. M. Rockingham, Special Force brigade commander, wishes "bon voyage" to Lieut.-Col. J. R. Stone, who commands the battalion. The "Patricias" left from the port of Seattle, Wash.—Central Press Canadian.

FARM MECHANICS

Edited by Prof. L. G. Heimpe! :: Agricultural Engineer, Macdonald College, Que.

Sturdy Work Bench for Woodworkers

Whether the home is in the country or town a work bench is a handy piece of equipment to have. Such a bench can be easily constructed as shown in the accompanying illustration.

At the top right is a detail of the framing of the bench. The front plank may be made of 2-inch hard wood but where such material is not available the construction shown in the plan may be used.

It will be noticed that the front edge of the bench top consists of a 4-inch strip of hard wood; which may be of birch, maple, oak or any other hard wood available. This scantling or plank is doweled and glued to the main plank of the bench top. As is commonly done in the construction of woodworking benches, the rear plank of the top consists of 1-inch material so as to provide

a trough, commonly found on the ordinary carpenter's bench.

The frame of such a bench must be strong and for the legs of this one, 2" x 6" material, dressed, should be employed. If hard wood is available for the legs so much the better, but particularly the leg through which the vise screw passes should be of hard wood. The sills to which the bench top is bolted should be 2 x 5 material, dressed, and notched into the legs as shown in the drawings. The fastenings of this bench should be bolts, except perhaps the base runners near the bottom of the frame, which may be screwed.

The vise is of particularly convenient construction. An ordinary vise screw, which is available from almost any hardware store, is employed. The nut for this screw is fastened by means of heavy screws or bolts to the inside face of the left front leg of the bench. The vise jaw consists of a plank, preferably about 2 1/4 inches thick, and 7 1/2 inches wide, of oak, birch or other hardwood which does not split readily. The flange of the bench screw is bolted to this main plank. Then, two diagonal vise braces are framed into the edges of the vise plank as shown in the end view of the bench, their upper ends being cut so as to

fit against the lower side of the bench top. These braces are set at an angle of about 45 degrees with the main jaws and are held at this angle by horizontal braces which are notched and screwed into the slanting braces. When the vise is opened, by turning the screw counter-clockwise, the whole assembly of the vise, consisting of the main plank, or vise jaw, the diagonal braces, with the additional horizontal braces will move together. This keeps the vise jaws always parallel with the face of the bench, which is a great convenience in a woodworking vise. When a piece of wood is clamped into the vise the diagonal braces are forced against the underside of the bench top, thus keeping the jaws parallel with the top of the bench at all times. This vise is easily constructed and is a very satisfactory addition to any woodworking bench. Apron boards in front and rear sides of the legs are depended upon in this bench to supply the necessary stiffening. The upright board for the tool rack of the bench is fastened to the rear edge of the bench top, screws being applied to hold it. This forms a rail for the rear of the bench, preventing tools from falling off.

YOU'RE TELLING ME By **WILLIAM RITT** Central Press Canadian Writer

A Canadian woman willed her two pet dogs and horse \$5,160. Betcha Dollar Dier, the office scratch sheet expert, says the dogs will probably make no bones about it but the nag could bet the dough on himself.

In Turkey an artist may be juggled for drawing critical cartoons. Pen and ink may lead to pen or clink.

Design of a new British sports car is described as "teardrop". And that's what Dad would shed if he got the bill for same.

Maybe the reason there are far fewer autumn than spring poets is because of the difficulty in finding words to rhyme with "football", "cranberries", "pumpkin pie" and "chrysanthemum".

A man was arrested on charge of stealing a ton of can openers. What he should have swiped is a jug opener.

At last we've found a man who can never be at a loss for words. He's Prof. Nils Hofner of Sweden who claims he has mastered no less than 200 languages.

Add to the list of the world's most irritating inventions: that automatic alarm clock that resets itself.

The island of St. Helena in the Atlantic has a tortoise 175 years old. Too bad it's not a parrot and can't dictate its memoirs.

A U.S. nutrition expert comes forth with the revolutionary statement that bread is not, after all we've been told, fattening. The big news in this is that the expert is a woman, Dr. Ruth Leverton.

ANCIENT SUPERSTITION

In the early days of this country, witchcraft and sorcery were used against rats. Some New England farmers wrote the rats a notice of eviction. They not only told them to move, but stated exactly where they were told to go—usually to the farm of some unpopular neighbor.

Parcels posted in Canada for delivery within Canada may be insured up to \$50 without fee

Lichens Probably Oldest Of Living Things On Earth

(By The Canadian Press)

Lichens growing on rocks and waste places across Canada and throughout the world are probably the oldest living things on earth. It has been estimated that some of them may date back to the last tremendous glacial retreat in America, 25,000 to 50,000 years ago.

Fundamentally, the lichens are a partnership between fungi and algae. It is an intimate partnership in which as mass of fine fungal threads entangle a multitude of minute green cells of an algae.

Algae, tiny primitive plants, can survive without the fungus. But the searching, delicate threads of a fungus wither and die if they fail to find the algal cells that fungal species needs. It is when the two are properly matched that a lichen starts to grow.

Lichens, therefore, are primordial plants existing on the same site, even if the first centre of the lichen rosette crumbled to dust ages ago.

Lichens growth annually is microscopic, and it is this known, minute growth, compared with their far-spread reach on mountain heights, that enables scientists to estimate their age with confidence and a high degree of accuracy.

In the rocky regions of Canada's provincial and national parks, the pleasing green-gray tone can be seen at great distances especially after a rain has brought out the best color-values. With masses of emerald green mosses usually growing nearby, they make a striking feature of the landscape.

Often tens of thousands of cross-ings of plants are required to produce a distinctive new type.

RETURNS TO INDIA—Hon. S. K. Kirpalani, of Ottawa, Ont., High Commissioner for India in Canada, with his wife aboard the Canadian Pacific liner Empress of Scotland, which sailed from Quebec City recently for Liverpool, Eng. The High Commissioner is returning to India to receive a new posting after spending a year and a half in Canada.

Barricade For Blizzards

Safeguard against winter motor hazards.

Motorists and those who travel Saskatchewan's Highways and Byways in winter are well advised to be prepared for blizzards and other unforeseen occurrences which could delay or prevent them from arriving at their destination on schedule.

Many a traveller has been killed or crippled by blizzards or sub-zero temperatures simply because he was not prepared to protect himself against these hazards. All too frequently a car heater is the only means of survival and if the motor stalls or runs out of gas, then what.

Those who drive cars on country trips in winter should equip their car with these essentials of survival:

Five good tires, tank full of gas,

one pint of alcohol added to each tankful, battery okay, heater okay, antifreeze adequate for lowest expected temperatures, chains in good condition, defrosting equipment working, good windshield scraper, radio okay (for weather forecasts), pall or bag of sand, axe and shovel, tow rope, flashlight with spare batteries and bulb, compass, flares, chemical heating pads, road map, matches, candles, sleeping bag or several blankets, emergency rations (biscuits, chocolate bars), thermos of hot drink, a good book.

Be prepared for the worst if you must start out when cold or stormy weather is predicted, wear or carry ready to put on, loose high boots or galoshes, several pair of heavy wool socks, a parka with hood or coveralls, windbreaker, wool and leather mitts, cap with ear flaps or toque, heavy brown paper can be a useful item as it is wind resistant when worn in pant-legs or under coat or jacket. Likewise a large brown paper bag with small eye holes and an air vent can be worn over the head. Smaller bags will protect the hands from the wind.

If stuck in snow and you must shovel out of trouble. First, dig around exhaust pipe and keep motor running.

If stalled stay with the car unless you know where you are going, the road is clear and you can see lights at night or houses in the daylight.

If you stay with the car shut off the motor to prevent deadly monoxide gas seeping in. Put on all possible garments, loosen tight shoes, wrap up completely in blankets and read or sleep. Thus time is passed and bodily heat conserved. Should you sleep and become cold you will wake up. Under no circumstances try to keep warm by vigorous movement; perspiration will result with loss of body heat, making your predicament more serious. Keep clothing and feet dry.

Should you be walking in a storm and become lost, don't wander. Burrow into a snowbank out of the wind and wait for the storm to abate or until you are found. When walking try not to allow yourself to perspire, remove some outer clothing if necessary. Never remove wet footwear to put on dry socks unless a fire can be built in a sheltered spot. Never rub frozen parts, especially with snow. Thaw them out gradually by natural body heat. Frozen fingers should be placed under shirt and in armpits. Frozen face, ears or feet should be warmed by the hands, or by covering with some dry garment. Companions with frozen feet could aid each other using the armpit method. Suggestions and advice set forth in this article were obtained from the Boy Scouts of America, explorer Viljalmur Stefansson, and The Canadian Army.—First Aid Services, Canadian Red Cross Services.

Prevent That Cold

Here we are right in the middle of the sniffle season again. Here are a few rules which will help you cut down on your quota.

1. Avoid overfatigue.
2. Do not shortchange yourself in the matter of sleep. If you will observe you will find that you catch most of your colds when you are tired and have lost sleep.
3. Dress warmly enough for the weather outside but do not over-dress when inside. Avoid overheated offices, houses and stores whenever possible. Most persons keep their houses too hot for health. From 72 to 75 is about right.
4. Eat a well-balanced diet with emphasis on the vitamins. You do not have such a variety of the green and yellow vegetables and are not out in the sun so much during winter months. Therefore cod liver oil or capsules which supply both A and D are valuable in sidestepping the unpleasant cold.
5. Women should realize they are more susceptible to colds at a certain time of the month.

If, in spite of good care, you take a cold anyway, stay in bed if you have any fever. Should you have complications such as involvement of the bronchial tubes or the sinuses you should call a doctor.

MANY METEORS

Millions of meteors enter the earth's atmosphere every day. Most of them are no larger than a grain of sand. The heat generated by their friction with the air burns them up in a flash of light.

VERY OLD TREES

Some of the giant redwoods in California are believed to be more than 4,000 years old.

On The Side : E. V. Durling

Dozen Grandchildren At 44

As for comparatively young women who have the most grandchildren the record of Mrs. Florence Herr, Newton Junction, N.H., seems hard to top. Mrs. Herr, who is 44 years old, has 12 grandchildren. She first became a grandmother at the age of 29. She was married when 15. At 19 she was the mother of four daughters.

Vanity Is Cause Of It All

Many men are now getting strongly interested in the matter of a rejuvenated appearance. Men in their middle forties and early fifties seek to achieve the appearance of being at least 10 years younger. This, in most cases, is not the result of vanity. With so many wives managing to look 15 years younger it is making too many husbands feel too elderly. Many barber shops now offer a facial rejuvenating treatment for men. The sale of abdominal braces and similar articles of attire designed to smooth out the male "corporation" is increasing amazingly.

Interesting Costume Thoughts

Have been invited to attend a "come as a song" fancy dress party. Idea of this type party is, of course, that the costume of each guest must represent a song. My girl friend said "Let's try to think of something really original." I said "how about you going as the little bird on Nellie's hat?" "That's carrying originality too far," said she. I still think it was a good idea. I can't decide whether to go as "the man who broke the bank at Monte Carlo" or "Ol' Man River". Another idea has just come to me like a flash. I could go as Casey. You know the song, "Casey would waltz with a strawberry blonde." Of course, I would have to get a strawberry blonde to complete the idea. Maybe that's also carrying originality too far. But it is an interesting idea, don't you think?

Champions

Apparently the champion beer drinkers recently mentioned here were not in the same class as John Eyerdam, of Seattle, who once drank 80 pints of beer in one day. My informant, his son, Walter Eyerdam, says he has proof of this feat both in written records and eyewitnesses. Walter says his father regularly consumed large quantities of beer but that it apparently never affected his health as he lived to be 88 years of age. And previous to his final illness had never been sick in his life.

Invitation To A Honeymoon

It is said that only about 20 per cent. of couples really enjoy their honeymoons. How about your honeymoon? Did you ever hear of three couples going on their honeymoons together? It has happened. Three brothers named Heavey, of Dublin, and their brides went honeymooning together after a triple wedding in Rome. Not only that, but the Heavey boys invited their bachelor brother to join them on the honeymoon. He did.

The Judicial Talent

Women make poor judges of competitions featuring male physical marvels—it is practically impossible for the ladies to remain cool, calm and collected while gazing at the competitors in a contest to determine the "handsomest man". For this reason feminine judges were barred in a recent competition in Paris to select the "world's handsomest man". The sponsor of the contest said women judges fail to observe "the technical Greek points of muscular perfection." That they are "influenced by a competitor's face, his curly hair or the color of his eyes."

OUR COMPLETE SHORT STORY—

THE BUTLER

Anna Felt The Doctor Was
Destroying Their Happiness
By His Own Hand.

By Louis Arthur Cunningham

"ANNA, I have a surprise for you, quite the best and most curious surprise. 'Wallace!'"

A figure loomed out of the gloomy portiers of the door leading to the servants' quarters.

"This is your mistress, Wallace," said Dr. Benet. "And these little pests are Julian and Rose who will plague the life out of you if you let them."

"I am at your service, madam, and the children's," said Wallace with a bow that charmed Julian and ravished Rose. But Mrs. Benet gathered her children closer to her and tried not to look at Wallace as though he were Death resurrected and clad in the stately garb of a butler.

Because it was dark and because he was elated with his wife's return—she had been away for months—Dr. Benet failed to mark her agitation. Wallace was as impassive.

"Dinner at eight, sir?" he asked smoothly and departed when Doctor Benet nodded.

"Come, Anna," said the doctor. "Has Wallace overawed you or so filled you with admiration that you just want to stand and marvel? He is a splendid domestic. I acquired him through Colonel Tupper. The Colonel found him in the war or in one of the hospitals after. The man is entirely without memory of the past—not shell-shock, the usual thing; but some defect in the bones at the base of the skull where a bullet nicked him. I hired him so I

could study him as well as benefit by his services."

"I... I understand," said Anna Benet, and the doctor attributed her tired, low-pitched voice to the fatigue of her journey.

But Anna was not tired. Her body—the slimly-moulded, graceful body of a matron who has never forfeited her girlhood, seemed no longer to exist. She was all spirit, and that spirit was suffering. She sent Julian and Rose away with Sims, the maid, and went quickly to her own room. Hat and coat she threw thoughtlessly on the bed and lay down beside them. Her temples throbbed. She had lost track of events and lived in a topsy-turvy world that was a shifting chaos—but out of the hurlyburly one thing resolved itself into rigid lines—the tall, sedate figure of Wallace, the butler; for Wallace was Anna Carvil's husband and Dr. Benet... was just a man, and Julian and Rose...

Anna Carvil and Wallace—he was Anton Riise then—had met and married in England a few weeks before he was sent to the front. Shortly after, he was reported killed in action and Anna had returned to America to find consolation in the love of Dr. Gene Benet. A year after Anton's death they were married. Five years of pure, crowded happiness had followed—years that had brought Julian and Rose, that had showed her the sterling worth of Gene Benet and caused her to forget the two weeks with Anton Riise. She had never loved Anton. It was a feverish impulse born of the fevered days of war that had thrust her into his arms. They had not been happy; it was madness, compared to which the sweet, sane love she had for Dr. Benet was the waking calm after a dream of passion.

She realized that she must prepare for dinner. She would have to face Wallace again. Gene had assured her that Wallace had no memory of events, but at any time all might come back to him. And with her, who had been his wife, always near... What would it mean to Gene, to the children? Would it destroy everything? Would Anton claim her? Would Gene want her? But perhaps she yielded to unnecessary fears. He might never regain his memory. She would ask Gene if cases such as the butler's were often cured.

It was Gene, at dinner, who gave

WESTERN BRIEFS

Hearst Travellers

WINNIPEG.—V. G. Hammond, of Winnipeg, has been elected president of the Northwest Commercial Travelers Association of Canada.

Urge Driving Tests

SASKATOON.—J. A. Christie, chairman of the Saskatchewan highway traffic board, urged members of the Saskatchewan Motor Transport association to back chemical tests for drunken driving.

Honorable Mention

CARLYLE, Sask.—The Carlyle Observer won honorable mention in competition with 538 other weekly papers across Canada for its commercial and job printing.

Plan \$11,000,000 Span

VANCOUVER, B.C.—City Council scheduled a special meeting to approve construction of an \$11,000,000 bridge over Granville Island in the west end of Vancouver.

May Reopen Plant

MOOSE JAW.—The possibility that the Prairie Vegetable Oils plant in Moose Jaw may start operation again in the near future was seen by R. A. Kennedy, manager. The industry was shut down last February because of dwindling supplies of raw materials and high freight.

To Meet At The Pas

THE PAS, Man.—Annual convention of the Hudson Bay Route association which seeks greater use of the port at Churchill, Man., will be held here Feb. 13 and 14. The date was set at a meeting of The Pas Chamber of Commerce. William Cox was elected chamber president.

her new fears and destroyed what little hope she had.

"To-morrow I am going to operate on Wallace—a little cutting at the base of the skull. I think I can restore his memory. It is a most fascinating piece of work."

Anna did not speak. She would have liked to cry out to Gene... to tell him he was destroying their happiness with his own hand. But there behind his chair stood Wallace, straight and impassive. She did not speak.

In the morning after breakfast she heard, as one hears the preliminary noises of a volcano that soon will drown people in destruction, the opening and shutting of doors in her husband's laboratory. The operation, he had told her, would not take long. It was almost sure to be a success.

An hour passed. Anna lived through several years. At any moment her husband and — her other husband would come downstairs to her and... Her emotion was too great for tears, but her hands clenched and her lips so tight-pressed, her eyes so wild, showed how she warred against fate and tried futilely to master her anxiety.

Upstairs the door opened, they were coming along the hall, down the stairs, talking. She heard the butler's voice. It sounded different, less subdued to her, more like Anton's voice.

They came into the living-room where she sat. She feared to look at them; yet a fascination not to be resisted drew her eyes to Anton's face, then to her husband's.

The butler's face was ghastly. Gene Benet looked troubled, baffled, disappointed.

"It did not work, Anna," he said. "And I could have sworn it would. Everything went as I had it planned. You're sure you recall nothing whatever of your past, Wallace? Perhaps in a day or so..."

"I remember nothing, sir," said Wallace. "I guess it will always be like that."

A few weeks later Wallace gave notice. He was going back to Europe, he told Dr. Benet, and much regretted leaving. Anna, her hope restored, confident that he would never remember, told him she was sorry to see him go; but in her heart she was glad to be free of his presence.

She drove Wallace to the station; Gene was called to a patient the morning of the butler's departure and had asked her to see the man away.

"Good-by, Wallace," said Anna, and gave him her hand just before he boarded the train. "I am sorry my husband could not do anything for you. Someday, perhaps, you will remember..."

He looked at her in his impassive, rigid way.

"No, I will never remember... Anna."

In many wars pigeons have been used to carry messages across the line of battle.

YOUR TURN — Special Force men encamped at Fort Lewis, Wash., are finding out that "fatigues" are still among a soldier's duties. Canadians above argue about whose turn it is to mop out the barracks. They are, left to right: Ptes. Paul Firlotte, Tom Black, F. J. Fitzgerald, P. H. LaMarche, Sgt. F. H. W. Taylor and Bill McCallaugh.

Veteran Knows Friendly Pioneer Spirit Still Exists

RICHLEA, Sask.—Robert Whilans, a veteran of the South African and First World Wars, lost a leg a year ago. Now he knows that the friendly pioneer spirit still lives in this community 80 miles southwest of Saskatoon.

Neighbors worked three days moving his house to a new location, insulating it, lining it with beaver board, laying new linoleum and installing electric lights.

Eston branch of the Canadian Legion paid all costs and Legion members donated their time.

LAKE SUCCESS, N.Y.—The United States, Canada and Britain reported a sharp increase in dope addicts—victims who have "graduated" from Marihuana to heroin.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out about 2 pints of bile juice into your digestive tract every day. If this bile is not flowing freely, your food may not digest. It may just decay in the digestive tract. Then gas bloats up your stomach. You get constipated. You feel sour, sunk and the world looks puny. It takes those mild, gentle Carter's Little Liver Pills to get these 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Effective in making bile flow freely. Ask for Carter's Little Liver Pills, 35¢ at any drugstore.

DEAR, I NEARLY FORGOT...FRIDAY IS YOUR FATHER'S BIRTHDAY!

JEEPER! WHAT'LL WE GIVE HIM THAT HE'LL APPRECIATE?

HOW ABOUT AN ELECTRIC HEDGE TRIMMER?

NO, HE NEEDS THE EXERCISE...BUT HE MIGHT LIKE A NICE SLACK SUIT...

HE DETESTS THEM!

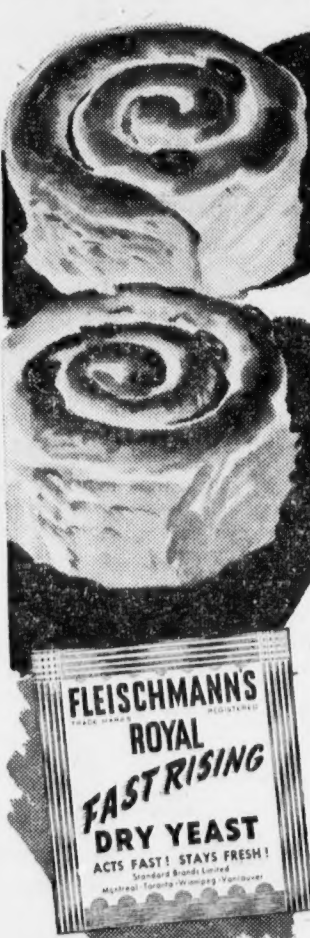

INITIALED GOLF BALLS, BOOKS, FISHING TACKLE, RECORD ALBUMS?

NO-O-O...AND HE'S TRYING TO CUT DOWN ON HIS SMOKING...HMM...WHAT WOULD A MAN REALLY WANT?

HAPPY BIRTHDAY, DADDY!

AREN'T THEY HEAVENLY, DEAR? THESE NEW DRAPERIES WILL BRIGHTEN UP THIS DRAB OLD DEN!

Baking's Easier, Speedier with Wonderful New Fast Rising Dry Yeast!

CINNAMON BUNS

Measure into large bowl, 1 c. lukewarm water, 2 tsps. granulated sugar; stir until sugar is dissolved. Sprinkle with 2 envelopes Fleischmann's Royal Fast Rising Dry Yeast. Let stand 10 min., THEN stir well. Scald 1 c. milk and stir in 1/2 c. granulated sugar, 1/4 tsp. salt, 6 tbs. shortening; cool to lukewarm. Add to yeast mixture and stir in 2 well-beaten eggs. Stir in 3 c. once-sifted bread flour; beat until smooth. Work in 3 c. more once-sifted bread flour. Knead until smooth and elastic; place in greased bowl; brush top with melted butter or shortening. Cover and set in warm place, free from draught. Let rise until doubled in bulk. While dough is rising, combine 1/2 c. brown sugar (lightly pressed down), 3 tsps. ground cinnamon, 1 c. washed and dried seedless raisins. Punch down dough and divide into 2 equal portions; form into smooth balls. Roll each piece into an oblong 1/4" thick and 16" long; loosen dough. Brush with melted butter or margarine. Sprinkle with raisin mixture. Beginning at a long edge, roll up each piece loosely, like a jelly roll. Cut into 1" slices. Place just touching each other, a cut-side up, in greased 7" round layer-cake pans (or other shallow pans). Grease tops. Cover and let rise until doubled in bulk. Bake in moderate oven, 350°, 20-25 minutes. Serve hot, or reheated.

• No more taking chances with perishable yeast cakes that have lost their leavening power! New Fleischmann's Fast DRY Yeast keeps full strength and active right till the moment you use it. Needs NO refrigeration—keeps safely in your cupboard. Try its marvellous results in your next baking.

Order a month's supply!

Wheat Club Reorganizes

A meeting was held in the Carbon Legion Hall on December 28, at which the Carbon Wheat Club reorganized for its fourth consecutive term. Daun Buyer was acting chairman for the election of officers and the new slate is as follows:

President, Ed Cannings.
 Vice-Pres., Marjorie Leiske.
 Secretary, Vivian Sigmund.
 Advisory committee: Club leader Norman Ohlhauser assisted by John Leiske, Ted Schmidt, Dick Garrett and Ed Foster.

District agriculturist N. Fred Bell of Drumheller attended the meeting and told of new activities which the club should plan as achievements in 1951.

The Carbon Wheat Club enjoyed a successful year in 1950 and expect the coming season to be even better.

CARD OF THANKS

Mr. and Mrs. Wm. Reid do sincerely thank all teachers and students of the Carbon school for the beautiful Christmas gift and hope everyone enjoys a Happy New Year.

LITTLE NEWS ITEMS OF LOCAL INTEREST

Mr. and Mrs. J.J. Ancelet and Edgar, and Mr. and Mrs. W. McPherson of Calgary were Christmas holiday visitors at the homes of Mr. and Mrs. Ted Sherring and Mr. and Mrs. Frank Sherring.

Corporal and Mrs. W. Pickerill of Strathmore were New Year's Day guests at the home of Mr. and Mrs. Norman Nash.

Chuck Goldamer was the lucky winner of the radio in the free draw conducted by W. Schacher. Mr. McAdam of Three Hills won the travelling set at the Lions Club New Year's Eve dance.

Mr. and Mrs. Andrews Helber and Mr. and Mrs. Sam Croissant and family of Lomond were holiday visitors at the home of Mr. and Mrs. Walter Schacher during Christmas.

A Girls' Club meeting will be held at the home of Mrs. Jack Barnes on Tuesday, January 9, at 7:30 p.m. All members are requested to attend.

Don and Gordon McLeod left Tuesday to resume their studies at Edmonton and Calgary respectively.

Mr. and Mrs. Jim Murphy of High River spent New Year's with the latter's mother, Mrs. F. Heath.

G.W. McCracken's car was taken from its parking place on the main street of Carbon Tuesday morning and at press time had still not been located. It is alleged that the car was taken by two boys who were staying at the McCracken home.

Rev. Jacob G. Rott will conduct morning services at Zion Baptist Church and evening services at Carbon Baptist Church Sunday, January 7. These are communion services. Sunday School at 10 a. m. at Zion and Carbon.

Art Weigum left Tuesday for Acadia Valley, where he has been transferred as Pioneer elevator agent. Earl Ohlhauser has taken over as Pioneer agent at Carbon.

Art was honored by fellow Lions Sunday afternoon at a gathering in the Scout Hall, and was presented with an electric waffling iron.

Mr. and Mrs. Al Messmer of Calgary spent New Year's Day at the home of Mr. and Mrs. Frank Sherring.

Mr. and Mrs. Jim Hunt and family of Calgary visited with relatives in Carbon during the New Year's holiday.

—The Drumheller Health Unit will hold a Well Baby and Pre-School clinic in the United Church hall on Monday, January 8th, from 10 a.m. to 12 noon.

Cliff White of Brooks spent the Christmas and New Year's holidays with relatives at Drumheller and Carbon.
